Flexible SAMaaS contract period, client site
deployments available
Our cloud offering is 100% Australian owned,
managed and dedicated to SAM as a Service

OUR CREDENTIALS

Fisher Australia has the in-house skill that other software asset management organisations seek to employ.

If you wish to avoid or reduce software publisher auditing it is becoming increasingly necessary to deploy an effective repository and discovery toolset. The Fisher Australia SAMaaS offering features:

- ✓ Flexera certified operations and administrative consultants
- ✓ IAITAM certified software asset managers (CSAM)
- ✓ Rich software publisher experience
- ✓ Extensive experience with enterprise class customers
- ✓ In house systems programming, support and hardware maintenance

Fisher Australia provides a complete SAMaaS solution that takes all the complexity out of SAM, yet keeps all that data and communication within Australia. We provide a complete solution from our premises in Melbourne Victoria or we can install on customer premises.

Fisher Australia is independent of the major software publishers and their reseller networks. Our expertise spans many major software publishers ensuring the ability to provide a robust and pro-active SAM service designed to meet your current and future business challenges.
